INTRODUCTION TO THE ANMAC ACCREDITATION FOLDERS

Systematic Evidence-Based Preparation

Enhanced Transparency & Audit Trails

**Streamlined Collaboration, Validation &
Review**

Clear Auditable Accreditation Readiness

INTEGRATED ASSURANCE MODEL FOR ANMAC ACCREDITATION

1. Evidence Collection

Systematic documentation aligned to ANMAC's five core standards. Structured evidence capture ensures complete coverage across all accreditation requirements. Digital organisation supports efficient retrieval and verification.

2. Validation & Review

Internal moderation processes ensure evidence quality and completeness. Stakeholder consultation validates alignment with ANMAC standards and institutional requirements. Cross-functional review strengthens submission integrity before external assessment.

3. Accreditation Readiness

Comprehensive, transparent submissions demonstrate full compliance with ANMAC Registered Nurse Accreditation Standards 2019. Clear audit trails support external reviewer confidence and streamlined assessment processes.

PURPOSE & CONTEXT

Systematic Evidence Alignment to ANMAC Standards

Structured Folder Architecture for Governance Visibility

Continuous Self-Assessment & Stakeholder Collaboration

Secure External Reviewer Access & Audit Trails

ANMAC CORE STANDARDS OVERVIEW

Safety of the Public

Standard 1: Prioritising public safety in program delivery, student conduct, and clinical practice. Ensures nursing graduates meet safety requirements before entering the profession.

Student Experience

Standard 4: Student Experience: Accessible information, academic and personal support services, equity and diversity commitments, and meaningful student representation.

Governance

Standard 2: Ensuring high-quality nursing education through effective leadership, oversight, and stakeholder engagement. TEQSA-aligned academic governance and continuous quality improvement.

Student Assessment

Standard 5: Student Assessment: Rigorous, outcome-aligned assessments with NMBA mapping, moderation processes, and PEP assessment accountability.

Program of Study

Standard 3: Curriculum rigor meeting AQF Level 7+ requirements, NMBA standards alignment, cultural safety integration, and mandated PEP hours including simulation-based learning. Registered Nurse Accreditation Standards 2019

ACCREDITATION ASSURANCE MODEL

Required Documents

Core governance, curriculum frameworks, staffing documentation, mapping matrices, and approval records.

Supporting Documents

Quality reports, systems evidence, industry engagement records, and student outcomes data.

Validation Register

Comprehensive gap analysis tracking with criterion ratings and assigned actions.

AI Audit Reports

Automated recommendations, risk ratings, and prioritized improvement actions.
