MQA SELF-REVIEW PORTFOLIO

Evidence Table

Supporting Compliance Evaluation of Self-
Accreditation Status

*PRP Quality Platform supports
compliance readiness for
institutions in Malaysia to meet
compliance requirements*

www.prpquality.io

Overview

The PRP Quality Platform is a comprehensive cloud-based system developed by Online Peer Solutions Pty Ltd, designed to support quality assurance and compliance mapping for higher education institutions. This innovative platform enables institutions to compile, organize, and present evidence aligned with the MQA Code of Practice for Institutional Audit (COPIA), streamlining the self-accreditation evaluation process.

Through structured evidence frameworks, customizable templates, and version control capabilities, the platform empowers institutions to demonstrate self-assurance, governance oversight, and educational quality excellence.

SRP FRAMEWORK

Key Components

EVIDENCE MAPPING

Systematically tag and organize institutional evidence aligned with COPIA evaluation areas. Create structured pathways linking documentation to compliance requirements.

DOCUMENTATION UPLOAD

Securely upload and manage all supporting documents through the PRP Quality Platform. Maintain version control and change logs for audit readiness.

REVIEW & ALIGNMENT

Conduct systematic reviews to ensure evidence alignment with MQA standards. Verify documentation completeness across all nine evaluation domains.

CONTINUOUS IMPROVEMENT

Implement feedback-driven enhancements to quality assurance processes. Foster institutional sustainability through ongoing self-evaluation cycles.

PORTFOLIO STRUCTURE

SRP Framework Overview

PART A: INSTITUTIONAL PROFILE

General information on the Higher Education Provider including records of self-accredited programmes and institutional governance documentation.

PART B: QUALITY ASSURANCE

Comprehensive documentation of quality assurance activities, compliance audits, and professional body accreditation evidence.

EVIDENCE DOCUMENTATION

Systematic compilation of programme reviews, terminated programme rationale, and continuous improvement records aligned with COPIA standards.

INSTITUTIONAL LEADERSHIP And Governance

Area 1 of the MQA Self-Review Portfolio focuses on institutional leadership and governance excellence. This domain evaluates how effectively institutions establish their vision, mission, and educational goals while implementing robust strategic planning frameworks. Evidence includes governance charts, meeting minutes, strategic plans, and performance reports demonstrating leadership accountability and institutional oversight.

Key evidence areas include data protection policies, cybersecurity frameworks, and cross-campus coordination mechanisms.

VISION & MISSION

STRATEGIC PLANNING

ACADEMIC LEADERSHIP

INFORMATION MANAGEMENT

Academic Development & MANAGEMENT

**LEARNING OUTCOMES
FORMULATION**

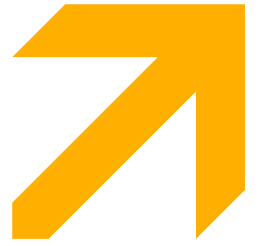

CURRICULUM DESIGN

ASSESSMENT & MOBILITY

Area 2 encompasses the systematic development of academic programmes aligned with MQF standards. This includes curriculum design and delivery processes, learning outcomes formulation, assessment policies, admission procedures, and student mobility frameworks. Evidence includes curriculum review minutes, programme benchmarking reports, assessment rubrics, and student feedback mechanisms demonstrating continuous quality improvement.

Area 3

Talent & Resources

Staff Policies & Development

Comprehensive HR policies for academic and non-academic staff, including recruitment, training records, performance evaluation, and reward systems aligned with institutional goals.

Physical & Technology Resources

Infrastructure plans, IT systems, learning facilities, and technological resources supporting quality education delivery and institutional operations.

Financial Governance

Financial management frameworks, budget allocation for academic programmes, resource sustainability planning, and student support services funding.

Area 4:

CONTINUAL IMPROVEMENT

QUALITY

Area 4 focuses on systematic programme monitoring and evaluation, stakeholder involvement in quality processes, internal quality assurance mechanisms, and institutional sustainability. This framework ensures continuous enhancement through structured review cycles, feedback integration from alumni and employers, and robust IQA policies that drive educational excellence.
