## CHED ISA Framework

# Five Key Result Areas (KRAs)

The ISA framework consists of five interconnected domains that form a holistic quality assurance system for Higher Education Institutions in the Philippines.

### Institutional Leadership & Governance

Strategic direction, organizational structure, policies, risk management, and accountability systems that guide institutional operations.

### Quality of Teaching & Learning

Curriculum design, faculty competence, learning outcomes assessment, and continuous improvement of academic programs.

### Research, Students & Community

Professional exposure, creative work, student support services, and meaningful community engagement partnerships.

# Governance & Teaching Excellence

The foundation of institutional quality lies in strong governance structures and effective teaching practices. These two Key Result Areas form the backbone of CHED's Institutional Sustainability Assessment framework.

## **KRA 1: Institutional Leadership & Governance**

Evidence includes board policies and minutes, organizational charts, HR management systems, risk management reports, strategic plans, and compliance documentation for CHED standards.

## **KRA 2: Quality of Teaching & Learning**

Evidence includes course syllabi aligned with CMOs, LMS analytics and usage reports, student learning outcomes data, faculty development records, and curriculum review documentation.

# Research & Student Support

Key Result Areas 3 and 4 focus on professional exposure, research excellence, and comprehensive student support systems essential for institutional sustainability.

## KRA 3: Research Excellence

Evidence includes research grants documentation, faculty publications, ethics committee approvals, OJT program records, and creative work portfolios demonstrating institutional research capacity.

## KRA 4: Student Support

Evidence encompasses Student Information System data, feedback survey results, scholarship records, counseling services documentation, and student welfare program reports.

## CHED ISA Evidence Portfolio

# Relations with the Community

### KRA 5: Community Engagement

Evidence includes MOAs/MOUs with partner organizations, community impact assessments, participation logs, outreach program documentation, and partnership agreements demonstrating social responsibility.

# ISA Evidence System Structure

**Policies & Procedures** – Institutional guidelines, governance policies, academic regulations, and compliance documentation organized for easy retrieval.

**Reports** – Annual reports, assessment outcomes, audit findings, and performance reviews with clear version control.

**Systems & Data** – LMS analytics, student information systems, research databases, and integrated digital platforms for real-time monitoring.

# PRP Quality Platform Integration

**100%**

### Centralized Repository

All ISA evidence stored in one secure digital platform with automated compliance tracking and role-based access for QA teams.

**24/7**

### Real-Time Analytics

Continuous monitoring dashboards with instant reporting capabilities for CHED evaluators and institutional leaders.

# Benefits of ISA Implementation

Implementing the Institutional Sustainability Assessment framework delivers measurable improvements across all institutional quality dimensions.

## Benefit 1

### Quality & Compliance

Enhanced institutional quality standards and CHED compliance readiness through systematic evidence management and structured documentation protocols.

## Benefit 2

### Data-Driven Decisions

Leverage analytics and KPI tracking through PRP Quality Platform to inform strategic planning and institutional development initiatives.

## Benefit 3

### Continuous Improvement

Foster a culture of continuous improvement aligned with national higher education goals and sustainable institutional excellence.

## PRP Quality Platform

Next Steps: Upload institutional evidence folders to PRP, assign QA leads for each KRA, schedule internal review cycles, and prepare for CHED evaluation.
